

ASKIN™ Installation

INSTALLATION

ASKIN INSTALLATION PROVIDES A COMPREHENSIVE RANGE OF CONSTRUCTION AND PROJECT MANAGEMENT SERVICES. THIS INSTALLATION IS BACKED WITH ISO 9001 ACCREDITATION, AND SUPPORTED BY A HIGH STANDARD OF SERVICE AND CONSTRUCTION EXCELLENCE.

ASKIN uses a team of industry trained and experienced professionals to provide high performance construction.

ASKIN installation teams construct panel system buildings to ASKIN standards with demonstrated endurance and performance over fifty years.

ASKIN installation details have been tested extensively both internally and by 'NATA' approved independent testing laboratories in Australia and internationally.

Compliance with architectural and engineering detailed design is monitored and supported by professional ASKIN construction project managers.

This process offers our clients peace of mind as we partner from initial design concept through to manufacturing and installation - Thus safeguarding the investment and insuring there is ultimate accountability.
