# COLORBOND® Permagard® steel

Protect the health of your business and the hygiene of your coolroom

---

Only COLORBOND® Permagard® steel combines proven strength and durability with built-in antibacterial product protection

**The standard product that's anything but** COLORBOND® Permagard® steel from BlueScope includes antibacterial product protection as a standard inclusion.

**How your business benefits**

In conjunction with your good hygiene practices, COLORBOND® Permagard® steel helps reduce the risk of cross-contamination, providing you and your customers with greater peace of mind.

**Why COLORBOND® Permagard® steel?**

COLORBOND® Permagard® steel incorporates antibacterial product protection that actively helps reduce the risk of cross-contamination. It inhibits the growth of surface bacteria that may cause odours, stains and cross-contamination.

This antibacterial product protection complies fully with the relevant US, EU and Australian standards.

By specifying COLORBOND® Permagard® steel you will ensure your hygiene sensitive areas receive the proven combination of strength, durability and antibacterial product protection.

**Independently tested and certified**

Importantly for the health of your clients, and your business, panels made from COLORBOND® Permagard® steel pass rigorous testing.

The product has been tested effective against *Staphylococcus aureus* and *Escherichia coli* in accordance with ISO 22196:2011, the international standard for testing antibacterial activity on plastics and non-porous surfaces.

COLORBOND® Permagard® steel is also certified as a FoodSafe product for ceiling and wall linings of food storage and processing facilities by HACCP Australia, an independent food safety programme and testing organisation.

**Large or small areas**

When you have hygiene sensitive environments to protect, no matter what sized area, rely on COLORBOND® Permagard® steel.

It's designed for use in coolrooms and food preparation areas within supermarkets, retailers, abattoirs and processing facilities.

---

COLORBOND® Permagard® steel helps reduce the risk of cross-contamination, providing you and your customers with greater peace of mind.
